Burdock (<i>Arctium lappa</i>)	3 ml	*

* Daily Value not established

Other ingredients: Kosher Vegetable Glycerine & Water

Did You Know? The circulatory system maintains tissue fluids for the optimal survival and functioning of the cell. Any alteration in minerals, fats and/or concentrations of cellular waste can easily change the overall viscosity of this ever-flowing river. This may result in diminished cellular metabolism, respiration and reproduction.

RECOMMENDED DOSAGE:

Take 20-30 drops of extract in a small amount of water between meals 3-4 times daily. Dosage may be increased according to individual needs as directed by health care practitioner.

Available in 1 ounce bottles.

NO FILLERS/NON-ALLERGENIC

Supports healthy blood circulation*

Transformation's H-Drain is a concentrated, rapidly-assimilated herbal product that assists the body to eliminate metabolic waste. Doctors are using H-Drain for:

- **Circulatory drainage**
- **Fatigue due to poor circulation**

The circulatory system services the diverse needs of the body's various tissues. This includes the transportation of nutrients to the interstitium for the cell, the removal of cellular waste debris and the carrying of hormones from their site of production to their site of activation. Without a fully functioning circulatory system, our tissues may not receive optimal nutrition. The herbal extracts Sarsaparilla, Yellow Dock, Ginger Root and Burdock in this product support a healthy circulatory system.
