# TRANSFORMATION

THE GENESIS OF GOOD HEALTH™

## Supplement Facts

Serving Size: 1 Capsule

Servings Per Container: 90/180

Amount Per Serving	% Daily Value	
Tzyme™ Enzyme Blend	373 mg	
Protease Blend (endo/exo proteases) (47,104 HUT / 500 DPP-IV / 100 USP)	205 mg	†
Phytase	90 FTU	†
Alpha-galactosidase	525 GalU	†
Amylase	3495 DU	†
Pectinase	30 endo-PGU	†
Glucoamylase	12 AGU	†
Lipase	340 FIP	†
Diastase	42 DP°	†
Invertase	14 SU	†
Lactase	140 ALU	†
Protease 3.0	2 SAPU	†
Cellulase	60 CU	†
Hemicellulase	60 HCU	†
Herbal Blend	63 mg	†
Fennel (seed), Ginger (rhizome), Flax seed, Peppermint (leaf), Artichoke (leaves) extract		
Bifidobacterium infantis	6 mg	†

† Daily Value not established

OTHER INGREDIENTS: CELLULOSE & WATER

## POLYSACCHAROLYTIC ENZYME BLEND

Transformation's polysaccharolytic enzyme blend includes enzymes such as alpha-galactosidase, phytase, amylase, glucoamylase, and diastase to assist digestion of starch and carbohydrates, including the starchy endosperm cell that surrounds the gluten protein found in wheat products.\*

## PROTEOLYTIC ENZYMES

Proteolytic enzymes support the proper digestion of both plant and animal proteins, including casein and gluten. The DPP-IV protease activity in Transformation's formulation helps break down some of the stubborn peptides found in grain that are often implicated in gluten intolerance.\*

## PROBIOTICS

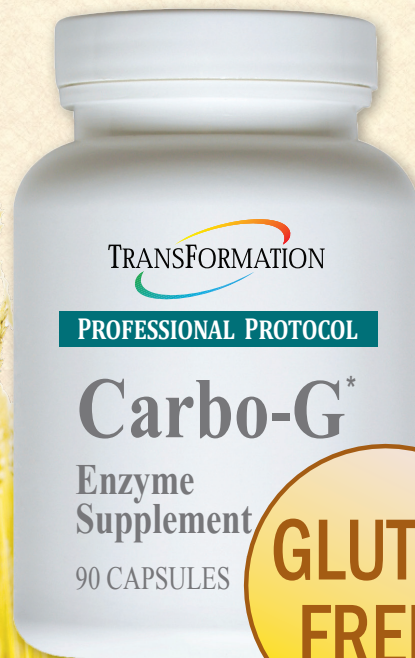

These "good" bacteria naturally present in the gut help support digestion to assist in maintaining optimum intestinal balance.\*

## HERBAL & PREBIOTIC PLANT FIBER

Transformation's unique formula also includes herbs such as fennel, ginger, flax seed, peppermint, and artichoke leaves known for their ability to promote gastrointestinal health.\*

# Spotlight on GLUTEN

Avoidance of wheat products may not be enough to maintain a gluten-free diet. For example, did you know that gluten is used as a food additive and may be present as a stabilizing agent in salad dressings, ice cream, and even ketchup? Our unique **Carbo-G** formula was created to complement those seeking a gluten-free lifestyle by encouraging more complete digestion of grains and absorption of nutrients.\*

## QUALITY MATTERS

With Transformation™ enzymes, you know that quality is top priority. Our enzyme nutrition formulas have been used clinically for over twenty years with consistent, proven results.\*

All of Transformation Enzyme Corporation's enzyme nutrition formulas guarantee:

**Purity** - We do not use any fillers in our products and include little to no "other ingredients" in the formulations. The cellulose and water listed under the **Carbo-G** label's supplement facts box are for the vegetarian capsule.

**Potency** - Transformation™ discloses the enzyme activity measurements, not just the weight of each ingredient. These will be listed in FCC units such as DU, HUT, LU, LacU, CU, etc. It is this total enzyme activity that shows you the actual potency, action, or strength of the enzymes rather than their weight in milligrams.

**Efficacy** - All Transformation™ enzymes are fungal and plant-based. Fungal and plant sources are preferred as they are functional throughout the GI tract, do not require an enteric coating, and are vegetarian.

**Laboratory Testing** - This step guarantees the quality and purity of every batch of Transformation™ products.

# HEALTH BENEFITS

Transformation's Professional Protocol™ **Carbo-G** is a digestive enzyme supplement designed to help reduce the symptoms of occasional bloating, diarrhea, gas, and abdominal cramps associated with diets high in complex carbohydrates.\*

## RECOMMENDED USAGE

Take one capsule at the beginning of every meal or snack with at least eight ounces of liquid or as directed by health care practitioner.

Available in bottles of 90 & 180 capsules.

NO FILLERS/NON-ALLERGENIC
