## FEMVITA

This formula promotes sexual function and libido, assists with occasional menopausal discomfort, and increases endurance and physical energy.\*

**FEMVITA** includes a blend of 24 vitamins and herbs designed to support a woman through various phases of her life.\*

**Natural Support** – Black Cohosh contains isoflavones (estrogenlike compounds) which have been shown to have estrogenic properties and promote estrogen production.\* Siberian Ginseng has been used to reinforce the body's vital energy (what the Chinese call *chi*), promote toned uterine muscles, support healthy uterine function, and enhance fertility.\*

**Endocrine Support** – This formula does not contain any hormones. Rather, plant source ingredients such as Maca with known phytoestrogen activity support the pituitary in producing the precursor hormones which ultimately end up raising estrogen, progesterone, and testosterone levels.\* **FEMVITA** also helps support the adrenal glands, the thyroid, and the pancreas.\*

**Women's Health** – This formula was designed primarily to support women's health during perimenopause and menopause and may also be helpful for women experiencing PMS.\*

**Recommended Usage:** One (1) capsule twice daily or as directed by a health care practitioner.

*Does not contain any dairy, egg, sugar, corn, yeast, wheat, soy, gluten, artificial colors, flavors, or preservatives.*

### Supplement Facts
