REZEN

calm your world

Supporting the nervous system with gentle and natural ingredients can assist the body with its overt and dangerous reactions to stress. This is what inspired the creation of **REZEN**, an innovative enzyme-delivered formula designed to aid the body in its ongoing battle against the type of 21st century stress that affects everyone.*

Stress Management – **REZEN** is a gentle blend of nutrients and adaptogen herbs designed to encourage calming, relaxing emotions without a sedative feeling.*

Adrenal Support – The safe and effective **REZEN** formula contains 2,500% DV of Vitamin B6, essential for energy and hormone production in the adrenals, and includes herbs and other ingredients known for their ability to support healthy adrenal gland function.*

Brain Health – **REZEN** includes several natural ingredients that support cognition health, memory, and learning which are called Nootropics.* For example, GABA is an amino acid and neurotransmitter responsible for balancing the excitatory transmitters – in other words, it acts like a “brake” during times of stress.* Other Nootropics in **REZEN** are Acetyl L-Carnitine, Ashwagandha, Bacopa Monnieri, L-Theanine, Rhodiola Rosea, and Vitamin B6.*

Enzyme Delivery System – **REZEN** includes a proprietary blend of enzymes for improved targeting, delivery, and absorption of all the various ingredients in this product.*

This formula has a calming effect on stress, improving mood and supporting a healthy nervous system and overall brain health.*
