Available in bottles of 60 capsules.

NO FILLERS/NON-ALLERGENIC

Immune AV: a Vitamin A Complex*

Transformation's Professional Protocol Immune AV: a Vitamin A Complex is designed to provide maximum immune system support. Doctors are using Immune AV: a Vitamin A Complex for:

- **Nutrient support for reoccurring infections, colds, fevers and weakened immunity**

The viruses that cause infections in the human body are generally smaller than bacteria and can easily pass through the tiniest of cellular and intercellular filtration systems. Fever, headaches, muscular aching, and chills usually characterize viral infections. Examples of viral infections include the common cold, mononucleosis, influenza, polio, tonsillitis, infectious hepatitis, encephalitis, measles and even certain forms of asthma. Immune AV: a Vitamin A Complex's formulation of vitamins, herbs, enzymes and minerals is designed to provide maximum immune support. Antioxidants supportive of a healthy immune system and herbs specific for their anti-viral properties are combined with an enzyme blend for improved delivery.
