Supports healthy blood sugar and appetite control*

Transformation's BalanceZyme Plus is formulated to assist the person who is interested in a weight management program. Doctors are using BalanceZyme Plus in conjunction with a healthy diet for:

- **Appetite control and weight management support**
- **Healthy insulin, glucose and blood sugar levels**
- **Support of healthy blood lipid ratios**
- **Healthy cholesterol and triglyceride levels**

This product is a completely natural source of support for the endocrine and digestive system. Herbal ingredients and nutrients are balanced with enzymes for effective delivery and utilization. Chromium and nettles help balance blood sugars. Garcinia cambogia and plantain are appetite suppressors. Bladderwrack, prickly ash and fenugreek support the pancreas, liver and digestion. The formulation contains digestive enzymes, however BalanceZyme Plus is a support product that works best when taken with a digestive formula such as LypoZyme.

RECOMMENDED DOSAGE:

Take one (1) to three (3) capsules 30 minutes before each meal when appetite control is the goal. For blood sugar and blood lipid management capsules may be taken with meals or between, depending on individual needs. Dosage may be increased according to need as directed by health care practitioner.

Available in bottles of 90 capsules.

NO FILLERS/NON-ALLERGENIC
