

Hormone Formulas

Notes on usage

The endocrine system consists of all the glands that secrete hormones into the blood stream. This includes the adrenal glands, thyroid glands, pituitary gland, pancreas, and reproductive glands. This category of products has been formulated to support the body's natural hormone production and does not replace specific hormone deficiencies.

General Indications

- Adrenal fatigue
- Stressful lifestyle
- Low thyroid
- Fatigue
- Unexplained weight gain
- Irregular menses
- PMS
- Menopause
- Prostate disorders
- Frequent urination
- BPH

General Information

- The endocrine and reproductive systems are closely related.
- MasterZyme uses “glandular” therapy to feed and fortify the targeted glands for improved function and health. Glandular therapy has been used in Traditional Chinese Medicine and Indian Ayurvedic Medicine for centuries to strengthen and fortify the corresponding human gland by supplying the biochemical, cellular, and nutritional components specific for that gland's function and repair. Glandular tissue comes from animal sources and is BSE free and safe for human consumption. Transformation's products are from FDA- and USDA-certified manufacturing facilities, and the manufacturer ensures that the glandulars are BSE free and free from harmful chemicals or pesticides (see “FAQ's: Glandulars” for more details).

Dosing

- Hormone levels should be checked prior to beginning supplements and monitored for results.
- Glandulars may be taken along with Rx hormones, but monitor hormone levels closely.
- In general, herbs and glandulars are not recommended during pregnancy/lactation or for children 12 years or younger. However, each case should be assessed on an individual basis and the practitioner, along with the patient, may use their professional judgment and decide to use the formulas.
- The recommended usage listed on the bottles is maintenance dosage. For therapeutic dosage, more may be taken based on need.

MASTERZYME

Transformation's glandular support for the entire endocrine system

This formulation of enzymes, herbs, and glandulars supports the entire endocrine system. More often than not, when one area of the endocrine system is challenged, the other glands are also affected. This formula provides nutritional support for the adrenal, pituitary, and thyroid glands as well as the reproductive system.

Product Highlights

- Enzymes for enhanced utilization of ingredients
- Natural source of antioxidants and Vitamin C
- Herbs for supporting hormone function
- Glandular Therapy strengthens, tonifies, and nourishes the endocrine system
- Non vegetarian formula in a gelatin capsule

SUPPLEMENT FACTS	
Serving Size 1 Capsule	
Amount Per Serving	% Daily Value
Glandular Enzyme Blend (Glucoamylase, Protease 3.0, Alpha-Galactosidase, Cellulase, Peptidase, Protease 4.5, Phytase, Pectinase, Hemicellulase, Lipase, Protease 6.0)	50 mg †
Rose Hips powder (fruit)	52 mg †
Organic Shatavari powder (root)	52 mg †
Black Cohosh powder (root)	50 mg †
Bladderwrack powder (leaf)	40 mg †
Thyroid bovine powder	30 mg †
Parsley powder (leaf)	25 mg †
Suprarenal Cortex substance powder (bovine)	15 mg †
Anterior Pituitary substance powder (bovine)	15 mg †

Adrenal substance powder (bovine)	10 mg †
† Daily Value not established	

Other Ingredients: Gelatin Capsule (Gelatin, Water), Rice Flour, Bamboo Leaf Extract (Silica)

Clinical Applications

- Irregular menses
- Infertility
- Menopausal symptoms
- Low energy, lethargy
- Low glucose levels
- Adrenal or thyroid insufficiency

In general, herbal formulas are not recommended during pregnancy and lactation or for children 12 years or younger. Each case should be assessed on an individual basis and the practitioner, along with the patient, may use their professional judgment and decide to use it.

For Your Information

- "Feeds and fortifies" the endocrine glands but is not supplying actual hormones (not a Rx)
- Do not take at bedtime, as it may hinder sleep
- May be taken with Thyroid Complex or Adrenal Complex for extra endocrine support
- May also be taken with prescription thyroid medications (monitor hormone levels closely)

Dosage

- Maintenance: 2 capsules daily with food
- Therapeutic: 2 capsules 3 x day with food
- For infertility, the male and female both need to be on enzymes and glandular support

⚠ WARNING: Lead - Cancer and Reproductive Harm - www.P65Warnings.ca.gov

This product has been identified as containing naturally-occurring lead that exceeds California Proposition 65 lead levels when dosing more than one capsule per day.
