

LYMPHEDEMA

Lymphedema is an accumulation of lymphatic fluid in the interstitial tissue that causes swelling, most often in the arms and/or legs, and occasionally in other parts of the body. It develops when lymphatic vessels are missing, impaired or damaged and when lymph nodes are removed. When the impairment becomes so great that the lymphatic fluid exceeds the lymphatic transport capacity, an abnormal amount of protein-rich fluid collects in the tissues of the affected area. The goal of enzyme therapy is to reduce swelling and inflammation.*

- A digestive enzyme formula with meals will help ensure proper digestion and bio-availability of all nutrients supporting a strong and healthy immune system.*
- A protease formula between meals will help promote optimal blood and lymphatic flow supporting delivery of nutrients and removal of toxins.* Proteases also help manage inflammation and break down the undesired excess protein in the intracellular space.*
- A lymphatic support product to assist in eliminating waste from a challenged lymph system will help improve nutrient absorption and enhance immune function.*
- Lymphedema is a chronic inflammatory disorder that requires additional inflammatory support. A formulation of proteolytic enzymes and antioxidants will help regulate inflammation anywhere on or in the body.*
- A probiotic supplement further supports digestion and the immune system while maintaining a healthy gut environment.*

TPP DIGEST	1 cap	with every meal or snack
TPP PROTEASE	2 caps	3 x day between meals
L-DRAIN	1 dropper	4 x day in 8-10 oz water
TPP PROTEASE IFC	1 cap	3 x day
TPP PROBIOTIC 42.5 [†]	1 cap	at bedtime

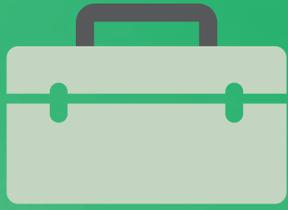

Transformation™ offers several formulas for the “sensitive” patient. If needed, you may substitute:

DIGESTZYME	3 caps	with every meal or snack
PUREZYME	3 caps	3 x day between meals
L-DRAIN	1 dropper	4 x day in 8-10 oz water
TPP PROTEASE IFC	1 cap	3 x day
PLANTADOPHILUS	3 caps	at bedtime

[†]Probiotic 42.5 is intended for short-term use as part of an enzyme therapy protocol. For maintenance / support, see Digestive System Health protocol.
