Did You Know? It is often desirable to supplement with additional lipase if your health goal is healthy gall bladder support, cholesterol balance, healthy bowel movement, and healthy skin.*

RECOMMENDED USAGE:

Take one (1) capsule with every meal or as directed by a health care practitioner.

Available in bottles of 60 capsules.

NO FILLERS/NON-ALLERGENIC

Digestive formula with lipase for enhanced fat digestion*

Complete digestion of food molecules with digestive enzymes helps reduce food intolerances and encourages a healthy and efficient immune system. Adequate absorption of essential fatty acids is also necessary to maintain healthy skin and membrane structure in cells throughout the entire body.

- **Digestive Enzymes.** This enzyme-only formula is designed to assist the proper digestion of fats, starches, and proteins with particular focus on enhanced fat digestion.*
- **Focus on Lipase.** The lipase in LypoZyme supports occasional indigestion related to dietary fats, provides the body with a feeling of satiety which helps controls appetite, and supports cholesterol and triglyceride levels already within the normal range.
- **Product Combinations.** This well-tolerated formula is a good addition to other digestive formulas. Use with DigestZyme during a meal that is high in fat content to add extra lipase for improved fat digestion, with BalanceZyme Plus for extra assistance in weight management, and with TPP EFA 1200mg to increase the body's ability to utilize essential fatty acids.*

Health Benefits: Transformation's LypoZyme is uniquely formulated with lipase for supporting healthy fat digestion, cardiovascular health, and weight management.*
