Take two (2) capsules first thing in the morning and right before bed or as directed by a health care practitioner.

Available in bottles of 120 and 200 capsules.

NO FILLERS/NON-ALLERGENIC

---

**Supports circulation, immunity, and healthy elimination***

Assuring optimal protein digestion and proper blood flow is necessary for effective nutrient delivery, a healthy immune response, and detoxification. Protease enzymes are therefore a must. This formula is uniquely designed with protease to promote systemic balance.*

- **Protease Enzymes.** The proteolytic activity in PureZyme assists the body in maximum digestion of nutrients, production of energy, and aid in immune support.*

- **Gentle Formula.** PureZyme is formulated with calcium for improved tolerance on an empty stomach and includes a smaller but equally effective protease activity per capsule compared to Transformation’s Professional Protocol™ Prostate for those who need a more gradual introduction to the benefits of proteolytic enzymes.*

- **Protein Digestion.** May be taken with meals for additional support with digesting proteins.* For those who have difficulty swallowing capsules, PureZyme may be pulled apart and mixed in a small amount of tepid water and/or with the first bite of food.

**Health Benefits:** Transformation’s PureZyme is well-tolerated, GI and pH stable proteolytic enzymes designed for natural support of the cardiovascular system for supporting muscular health, immune system health, urinary health, and healthy elimination.*
