REZEN

This formula has a calming effect on stress, improving mood and supporting a healthy nervous system and overall brain health.*

Supporting the nervous system with gentle and natural ingredients can assist the body with its overt and dangerous reactions to stress.* This exact premise is what inspired the creation of **REZEN** – an innovative new product formulated to help aid the body in its ongoing battle against the type of 21st century stress that affects everyone.*

Stress Management – **REZEN** is a gentle blend of nutrients and adaptogen herbs designed to encourage calming, relaxing emotions without a sedative feeling.*

Adrenal Support – The safe and effective **REZEN** formula contains 2,500% of the Daily Value of Vitamin B6, a vitamin that is essential for energy and hormone production in the adrenals.* This formula also includes herbs to support healthy adrenal gland function.*

Brain Health - **REZEN** includes several natural ingredients that support cognition health, memory, and learning which are called Nootropics.* For example, GABA is an amino acid and neurotransmitter responsible for balancing the excitatory transmitters – in other words, it acts like a “brake” during times of stress.* Other Nootropics in ReZEN are Acetyl L-Carnitine, Ashwagandha, Bacopa Monnieri, L-Theanine, Rhodiola Rosea, and Vitamin B6.*

Enzyme Delivery System - **REZEN** includes a proprietary blend of enzymes for improved targeting, delivery, and absorption of all the various ingredients in this product.*
